### EXAMINER'S AMENDMENT

1) An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with H.W Reick on April 11, 2006.

The application has been amended as follows:

Claims 1-11 and 22-26 are cancelled.

2) The following is an examiner's statement of reasons for allowance: IN re claim 12, none of the references cited either alone or in combination provide a coupling member for a gas-assist strut comprising: a body coupled to an end of a rod having a spherical socket with a pair of slots communicating with a socket for receiving a generally C-shaped spring, the body including a recess configured to receive a cam; a cam including a cam element and control handle, the cam nestably received within the recess of the body; and a generally C-shaped spring having ends and a center section, wherein the center section has a width covering the cam element when the spring is positioned over the cam for engaging the body, wherein the ends of the spring extend within the slots of the body for lockably engaging a ball, wherein the cam element when moved from a locking position to an unlocking position engages the center section of

the spring and urges the ends of the spring at least partially out of the slots for releasing the body from an associated ball to decouple the strut.

IN re claim 17, none of the references cited either alone or in combination provide a coupling member for a gas-assist strut comprising: a spring having at least one semi cylindrical recess for receiving an end of a cam element of the cam when in a locking position.

IN re claim 20, none of the references cited either alone or in combination provide a coupling member for a gas-assist strut comprising: a body recess including an arcuate slot extending through an arc of about 180 degrees for receiving the control handle.

3) Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4) Any inquiry concerning this communication or earlier communications from the examiner should be directed to Devon C. Kramer whose telephone number is 571-272-7118. The examiner can normally be reached on Mon-Fri 8-4.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James McClellan can be reached on (571 )272-6786. The fax phone
